Experience

- Lab Manager at Bochum Makerspace.** I lead two labs (Digital Lab and Plastics Lab) and I'm involved in the overall development of RUB-Makerspace, a 2000sqm innovation space with a team of about 20 people. Ruhr-Universität Bochum, Germany. 2020–today
- Writer, researcher, consultant.** Book project "Handbuch Fab Labs" and consultation work for organizations interested in Maker-/innovation spaces. Self-employed, Germany. 2019–2020
- Researcher, project manager, lecturer.** After graduating, I stayed at Uni Siegen as a researcher to continue building Fab Lab Siegen into a sustainable infrastructure. Apart from the Lab, I worked on/in in different projects (see below), published and did a lot of teaching. University of Siegen, Germany. 2015–2019
- Guest researcher, consultant.** Field research, consultations and development of joint project proposals in/with collaborators from the Middle East. University of Birzeit, Univ. of Technology Oman, Goethe Institute, others, (mostly) Palestine. 2014–2019
- Founder and manager.** I founded Fab Lab Siegen and managed it on its journey from a student initiative in a literal storage room on campus outside the city to a wonder- and colorful, open and community-oriented space of about 300sqm filled with people, ideas, tools and machines right in the city center. Siegen, Germany. 2013–2019
- TA, student researcher.** During my student times, I was a teaching assistant (mostly in HCI), assisted in different research projects (mostly with qualitative field research) and was in IT and media tech support/maintenance. Universities of Siegen and Duisburg-Essen, Germany. 2009–2015

Education

- M.Sc. Human Computer Interaction** (honors) - Socio-technical systems design based on qualitative methods. University of Siegen, Germany. 2012–2015
- B.Sc. Applied Cognitive and Media Sciences** - Combination of Computer Science and Psychology (without the advanced engineering and clinical aspects, respectively), grounded in quantitative methods. University of Duisburg-Essen, Germany. 1998–2002

Projects and funding

- Maker in Residence** is an effort at RUB-Makerspace to invite interesting Makers from different disciplines to come, work here, share knowledge and create something (works of art, workshop concepts, etc.) that stays permanently at RUB-Makerspace. Regional donors, about 20k p.a. 2023–today
- MentorINN** is a joint project between three local universities to found Ruhr School of Design Thinking, to better implement Design Thinking in interdisciplinary teaching and to share teaching material and concepts between the universities. Stiftung Innovation in der Hochschullehre ('foundation for digital teaching in academia'), about 20k. 2022–2024
- SMAPS** - the center for smart production systems - was a research-infrastructure project on additive fabrication and smart systems for 2019–2022

industrial tooling (mainly forming processes). I was part of the proposal team and briefly involved in the ramp-up phase (mostly procurement).
European EFRE-fund (EFRE.NRW), about 3m€.

FAB 101 was a joint research project of four German universities on Fab Labs and digital fabrication in academic. It focused on cooperation, tools, education and infrastructure. I developed the core idea for the project, led the proposal and was overall project manager as well as part of the operative team.

2017–2020

Federal Ministry of Education and Research, about 1.2m€.

YALLAH - “You All Are Hackers” was a student exchange / hackathon project. Students from Palestine and Germany visited each other for multiple stays, worked on socio-economical issues using “maker-methods” and created an art exhibition. I had the project idea after my own visits to Palestine as a student, led the proposal and helped to recruit and set up the staff who took over the project.

2016–2018

German Academic Exchange Service (DAAD), about 225.000€.

ZEIT.RAUM Siegen was a project between a regional museum, three university chairs and Fab Lab Siegen to develop a 3D-printed, interactive city model and a regional Wiki for a museum installation. I coordinated the ideation phase, wrote most of the proposals and was part of the negotiation team. In the project, I built the first prototypes for model and wiki and recruited the project staff.

2016–2018

Regional societies, University of Siegen, other sources, about 190.000€ (funding brochure).

Internet-Cafe4Refugees was a project we set up when Uni Siegen housed hundreds of refugees. We provided tech support, hardware and internet connection together with the local freifunk.net community.

2015–2016

Volunteer work, hardware donations and enough local funding for student aids to cover daily opening hours.

Fab Lab Siegen was my baby for many years and my first real experience in regards to being a founder and the world of fundraising. My old team is still running and growing the Lab and it has become local infrastructure.

2013–today

Calls for student projects, donations, other sources, about 100.000€ in money during the first 2-3 years (later, funding strategies changed). The spaces for the lab were/are co-sponsored by private-public partnerships and there were/are hardware donations as well.

CUBES was a research project on community-based innovation in software and usability for small and medium sized enterprises. I was involved as a student, then researcher, then (interim) project manager for the project reporting and closing.

2012–2015

Federal Ministry for Economic Affairs and Energy, about 800.000€.

Selected Publications

Handbuch Fab Labs: Einrichtung, Finanzierung, Betrieb, Forschung & Lehre by Iris Bockermann, Jan Borchers, Anke Bocker, Marcel Lahaye, Antje Moebus, Stefan Neudecker, Oliver Stickel, Melanie Stilz, Daniel Wilkens, René Bohne, Volkmar Pipek, Heidi Schelhowe. Bombini-Verlag.

2021

shARe-IT: Ad hoc Remote Troubleshooting through Augmented Reality by Thomas Ludwig, Oliver Stickel, Peter Tolmie, Malte Sellmer. Journal on Computer Supported Cooperative Work 30, pp. 119–167.

2021

Fab:UNiverse - Makerspaces, Fab Labs and Lab Managers in Academia by Oliver Stickel, Melanie Stilz, Anke Bocker, Jan Borchers, Volkmar Pipek. Workshop at Fab Learn Europe Conference '19.

2019

Fab Lab Education in German Academia by Oliver Stickel, Anke Bocker, Melanie Stilz, Antje Möbus, Iris Bockermann, Jan Borchers, Volkmar Pipek. Proceedings from the Fab14 Conference '18, pp. 39-46.

2018

Computerclubs und Flüchtlingslager - Ein Diskussionsbeitrag zur Forschungs- und Bildungsarbeit aus praxistheoretischer Perspektive by

2018

Oliver Stickel, Konstantin Aal, Marén Schorch, Dominik Hornung, Alexander Boden, Volker Wulf, Volkmar Pipek. Tagungsband Do it! Yourself? Fragen zu (Forschungs-)Praktiken des Selbermachens.

3D printing/digital fabrication for education and the common good by Oliver Stickel, Konstantin Aal, Verena Fuchsberger, Sarah Rüller, Victoria Wenzelmann, Volkmar Pipek, Volker Wulf, Manfred Tscheligi. **Workshop** at Communities & Technologies conference '17. 2017

User Integration in Agile Software Development Processes: Practices and Challenges in Small and Medium Sized Enterprises by Oliver Stickel, Corinna Ogonowski, Timo Jacobi, Gunnar Stevens, Volkmar Pipek, Volker Wulf. In: Cockton, G., Lárusdóttir, M., Gregory, P., Cajander, Å. (eds) - Integrating User-Centred Design in Agile Development. Springer. 2016

3D Printing with Marginalized Children – An Exploration in a Palestinian Refugee Camp by Oliver Stickel, Dominik Hornung, Konstantin Aal, Markus Rohde, Volker Wulf. Proceedings of the 14th European Conference on Computer Supported Cooperative Work (ECSCW) '15, pp. 83-102. 2015

Bottom-Up Kultur in Siegen: Ein Bericht über aktuelle Strukturen, Entwicklungen und Umnutzungsprozesse by Oliver Stickel, Alexander Boden, Gunnar Stevens, Volkmar Pipek, Volker Wulf. In: DIAGONAL - University of Siegen's annual journal 35, pp. 55–70 (2014). 2014

Towards Sociable Technologies: An Empirical Study on Designing Appropriation Infrastructures for 3D Printing by Thomas Ludwig, Oliver Stickel, Alexander Boden, Volkmar Pipek. Proceedings of the Designing Interactive Systems Conference (DIS) '14, pp. 835–844. 2014

Community roles

I co-organized Fab:UNiverse multiple times - it's a conference for Fab Lab managers at universities. I've also (co-)organized a lot of different events, temporary (Maker)spaces and meetups such as the Usability Day Siegen (2014-2018).

I have been an elected member of different bodies of (self)-governance such as the Senate commission on Strategic University Development at Uni Siegen and head of the student representatives ("Fachschaftsräte") at Uni Duisburg-Essen and at Uni Siegen respectively. Occasionally, I've been asked to fill roles in regional and national expert committees (mostly in relation to innovation and community spaces).

As a researcher, I was reviewer/chair for conferences and journals like CHI, JCSCW, C&T or M&C.

Teaching

I enjoy teaching and learning a lot. At Uni Siegen, I've been responsible for the practical part of the mandatory introduction to Human Computer Interaction for many years - i.e. mentoring up to 40 students per iteration through big, semester-long projects ending in submissions to and wins in national student challenges. Additionally, I've held many different seminars ranging from reading classes on literature about "Making" to very practical seminars on rapid prototyping methods. I've made it a point to try and be open in teaching and have frequently had students from other faculties or external guests in my seminars.

As a thesis advisor and co-advisor, I have accompanied about 8 Bachelor and Master Students along their paths to graduation. Topics have varied from participatory-design-oriented field investigations to studies about Makerspaces in teacher training to engineering and fabrication of additive tools for industrial processes. Additionally, I've been involved in co-advising state-certified technicians as a pilot project between a university and a technical vocational college.

Nowadays, I'm less involved in structured, academic teaching but mostly teach and learn whatever is needed to help many different Makerspace community members from (many different) disciplines with their - many different - projects.

Awards and honors

Honorable Mention Paper Award , "Mensch und Computer" (M&C) conference of the German Informatics Society (GI).	2015
Best Graduate of the faculty , University of Siegen, Germany.	2015
Scholarship Tallinn Summer School on research methods in Human-Computer interaction, University of Siegen, Germany.	2014
First Prize Student Usability Challenge, German Informatics Society (GI).	2013

Skills in Keywords

Making - Rapid Prototyping (many different methods), CAD/CAM, general (basic) coding, (traditional) web development, electronics and integrated systems for rapid prototyping. Makerspace operation / management / safety.

Human Centered Design - UX design, HCI, usability methods, design thinking, convergence of agile and user centered methods.

Projects and People - Project development, social innovation, fundraising, agility / Skunkworks, community and team development, operations (with)in public service and public administration.

Methods - Constructionism, human-centered teaching and learning, mixed-methods, action and field research, participatory methods and participatory action research, (Maker-)space(s) as a method.

Languages

Native: German
Fluent: English
Rudimentary: French
