🎓 ORCID / 🏆 Scholar / 📊 ResearchGate

Experience

- Project manager / lab leader.** I work at the Makerspace at Uni Stuttgart on the intersection of sustainability and Makerspaces. [University of Stuttgart](#). 2023–today
- Lab leader.** I was involved in the setup of RUB-Makerspace as deputy general manager as well as lab leader for the Digital Lab and the Plastics Lab. RUB-Makerspace is a 2000sqm space with a team of 16 people and multiple (sub-)labs. [Ruhr-Universität Bochum](#). 2020–2023
- Self-employed researcher, consultant, educator.** Consultation work for organizations interested in Fab Labs, Makerspaces and Community Innovation Spaces. Public and private grant proposals. Teaching. Book project “Handbuch Fab Labs”. 2015–today
- Researcher, project manager, educator.** After graduating, I stayed at Uni Siegen to continue building Fab Lab Siegen into a sustainable infrastructure. Apart from the Lab, I worked on/in in different projects (see below), published and did a lot of teaching. [University of Siegen](#). 2015–2019
- Guest researcher, consultant.** Field research, consultations and development of joint project proposals in/with collaborators from the Middle East. [University of Birzeit](#), [Univ. of Technology Oman](#), [Goethe Institute](#), others, (mostly) Palestine. 2014–2019
- Founder and manager.** I founded Fab Lab Siegen and managed it on its journey from a student initiative in a literal storage room on campus outside the city through many locations to a big, wonderful, colorful, open and community-oriented space with a funded team and filled with people, ideas, tools and machines right in the city center. [Siegen](#). 2013–2019
- TA, student researcher.** Teaching assistant (mostly in HCI), research assistant (mostly with qualitative field work), IT and media tech support/maintenance. [Universities of Siegen and Duisburg-Essen](#). 2009–2015

Education

- (Occasional) dissertation work** - About (Fab) Labs as public infrastructure. [University of Siegen](#) and self-employed. 2015–today
- M.Sc. Human Computer Interaction** (honors) - Socio-technical systems design based on qualitative methods. [University of Siegen](#). 2012–2015
- B.Sc. Applied Cognitive and Media Sciences** - Computer Science and Psychology (without advanced engineering and clinical aspects), grounded in quantitative methods. [University of Duisburg-Essen](#). 2009–2012

Community roles

I (co-)chaired Fab:UNiverse - the conference of Fab Lab managers at German universities - multiple times and help maintain its website. I've also (co-)organized many gatherings such as temporary (Maker)spaces at other events or meetups like the World Usability Day Siegen (2014–2018).

In academic service, I was reviewer/chair for conferences and journals like CHI, JCSCW, C&T or M&C. Occasionally, I've been asked to join committees, mostly on (community) innovation spaces or student issues. I've also been an elected member of different bodies of (self)-governance

such as the Senate commission on Strategic University Development and examination boards at Uni Siegen or head of the student representatives ("Fachschaftsräte") at Uni Duisburg-Essen and Uni Siegen respectively.
Memberships: Verbund Offener Werkstätten, Chaos Computer Club, ver.di, Fab Lab Network, FIF. **Past:** UPA, GIG, Hasi, Gl.

Teaching

I enjoy teaching and learning a lot. I've always made it a point to try and be open in teaching and have frequently had students from other faculties or external guests in my seminars.

At Uni Siegen, I've been responsible for most elements of the annual mandatory introduction to Human Computer Interaction for years. This included lectures and mentoring up to 40 students per iteration through big, semester-long projects ending in submissions to and wins in national student challenges. Additionally, I've held many different seminars ranging from reading classes on literature about "Making" to very practical seminars on rapid prototyping methods.

At Ruhr-Uni Bochum, I was less involved in structured, academic teaching but taught and learned whatever was needed to help many different Makerspace community members from (many different) disciplines with their - many different - projects.

As a thesis advisor and co-advisor, I have accompanied about 8 Bachelor and Master Students along their paths to graduation. Topics have varied from participatory-design-oriented field investigations to studies about Makerspaces in teacher training to engineering and fabrication of additive tools for industrial processes. Additionally, I've been involved in co-advising state-certified technicians as a pilot project between a university and a technical vocational college. Occasionally, I've contributed to revisions of examination regulations and similar regulatory structures.

I've also developed and held lots of safety and infrastructure introductions.

Skills in Keywords

Making - Makerspace operation / management / safety. Rapid Prototyping (many different methods), CAD/CAM, general (basic) coding, (traditional) web development, electronics and integrated systems for rapid prototyping, basic skills in different crafts / workshop and lab areas.

Human Centered Design - HCI, participatory design, UCD, CSCW, Design Thinking, convergence of agile and UCD.

Projects and People - Project development, social innovation, fundraising, agility / "Skunkworks", community and team development, operations (with)in public service and public administration.

Methods - Constructionism, human-centered teaching and learning, mixed-methods, action and field research, participatory methods and participatory action research, (Maker-)space(s) as a method.

Personal

Birth date: 12 June 1987

German: native, English: fluent, French: rudimentaire, Latin: obliviscebam.

I enjoy camping, water, (working on) motorbikes, cooking and books.

Projects & funding

Maker in Residence is an effort at RUB-Makerspace to invite **Makers** from different disciplines to share knowledge. I co-led the first two funding rounds and managed the 2023 residency.
Regional donors, 20-40.000€ p.a.

2023-today

| | |
|--|------------|
| MentorINN is a project between three universities to found Ruhr School of Design Thinking, to support Design Thinking in academic teaching and to share course material. I was part of the proposal team and occasionally helped in the project. Stiftung Innovation in der Hochschullehre ('foundation for digital teaching in academia'), about 20.000€. | 2022-2024 |
| SMAPS - the center for smart production systems - was a research-infrastructure project on additive fabrication and smart systems for industrial tooling (mainly forming processes). I was part of the proposal team and briefly involved in the ramp-up and procurement phase. European EFRE-fund (EFRE.NRW), about 3m€. | 2019-2022 |
| FAB 101 was a research project of four German universities on Fab Labs in academia. It focused on cooperation, tools, education and infrastructure. I developed the core idea, led the proposal, was project manager and part of the operative team. Federal Ministry of Education and Research, about 1.2m€. | 2017-2020 |
| YALLAH - "You All Are Hackers" was a student exchange / hackathon project. Students from Palestine and Germany visited each other and worked on socio-economical issues and art using "maker-methods" (info slides from 2017). I developed the core idea after my own visits to Palestine as a student, led the proposal and helped recruit and set up the staff who took over. German Academic Exchange Service (DAAD), about 225.000€. | 2016-2018 |
| ZEIT.RAUM Siegen was a project between a museum, three university chairs and Fab Lab Siegen to develop a 3D-printed, interactive city model and a regional Wiki for a museum installation. I coordinated the ideation phase, wrote most of the proposals, was part of the negotiation team, built the first prototypes for model and wiki and recruited the project staff. Regional societies, University of Siegen, other sources, about 190.000€. | 2016-2018 |
| Internet-Cafe4Refugees was a project we set up when Uni Siegen housed hundreds of refugees. We provided tech support, hardware and internet connection together with the local freifunk.net community. Volunteer work, hardware donations and enough local funding for student aids to cover daily opening hours. | 2015-2016 |
| Fab Lab Siegen was my baby for many years and my first real experience in regards to being a founder and the world of fundraising. My old team is still running and growing the Lab and it has become local infrastructure. Calls for student projects, donations, other sources, about 100.000€ in money and more in hardware donations during the first three years. Later, funding strategies changed when the project became official university infrastructure. The spaces for the lab were and are co-sponsored by private-public partnerships. | 2013-today |
| CUBES was a research project on community-based innovation in software and usability for small and medium sized enterprises. I was involved as a student, then researcher, then (interim) project manager for the project reporting and closing. Federal Ministry for Economic Affairs and Energy, about 800.000€. | 2012-2015 |

Awards & honors

| | |
|--|------|
| Honorable Mention Paper Award , "Mensch und Computer" (M&C) conference for Praktiken der Nutzerintegration im Entwicklungsprozess von KMU (see below), German Informatics Society (GI). | 2015 |
| Arthur-Woll award for an exemplary master thesis. | 2015 |
| pwc award for best graduate of the faculty. | 2015 |
| Scholarship EUSSET Summer School on Computer Supported Cooperative Work, Como, Italy. | 2015 |
| Scholarship Summer School on research methods in Human-Computer interaction, Tallinn, Estonia. | 2014 |

Publications

- Handbuch Fab Labs: Einrichtung, Finanzierung, Betrieb, Forschung & Lehre** by Iris Bockermann, Jan Borchers, Anke Brocker, Marcel Lahaye, Antje Moebus, Stefan Neudecker, Oliver Stickel, Melanie Stilz, Daniel Wilkens, René Bohne, Volkmar Pipek, Heidi Schelhowe. Bombini-Verlag. 2021
- shARe-IT: Ad hoc Remote Troubleshooting through Augmented Reality** by Thomas Ludwig, Oliver Stickel, Peter Tolmie, Malte Sellmer. Journal on Computer Supported Cooperative Work 30, pp. 119–167. 2021
- Fab:UNiverse - Makerspaces, Fab Labs and Lab Managers in Academia** (slides) by Oliver Stickel, Melanie Stilz, Anke Brocker, Jan Borchers, Volkmar Pipek. Workshop at Fab Learn Europe Conference '19. 2019
- Fab Lab Education in German Academia** by Oliver Stickel, Anke Brocker, Melanie Stilz, Antje Möbus, Iris Bockermann, Jan Borchers, Volkmar Pipek. Proceedings from the Fab14 Conference '18, pp. 39-46. 2018
- Praxisorientierte Projektstudie zur transdisziplinären Entwicklung innovativer Produkte** by Oliver Stickel, Stefan Krick, Timo Scherer, Tamara Reinicke, Volkmar Pipek. Regional conference on innovative teaching. 2018
- Fab Labs and Interdisciplinary Academic Teaching: A research agenda** (poster) by Oliver Stickel, Melanie Stilz, Volkmar Pipek. Proceedings from the Fab Learn Europe Conference '18, pp. 104-105. 2018
- Computerclubs und Flüchtlingslager - Ein Diskussionsbeitrag zur Forschungs- und Bildungsarbeit aus praxistheoretischer Perspektive** by Oliver Stickel, Konstantin Aal, Marén Schorch, Dominik Hornung, Alexander Boden, Volker Wulf, Volkmar Pipek. In: Langreiter, N., Löffler, K. (eds.) - Do it! Yourself? Fragen zu (Forschungs-)Praktiken des Selbermachens. transcript. 2017
- 3D printing/digital fabrication for education and the common good** by Oliver Stickel, Konstantin Aal, Verena Fuchsberger, Sarah Rüller, Victoria Wenzelmann, Volkmar Pipek, Volker Wulf, Manfred Tscheligi. Workshop at Communities & Technologies conference '17. 2017
- MuC-Makerspace: Academic practices in Community Innovation and (Digital) Fabrication** by Oliver Stickel, Melanie Stilz, Volkmar Pipek. Workshopband der Mensch & Computer Konferenz (MuC) '17. 2017
- User Integration in Agile Software Development Processes: Practices and Challenges in Small and Medium Sized Enterprises** by Oliver Stickel, Corinna Ogonowski, Timo Jacobi, Gunnar Stevens, Volkmar Pipek, Volker Wulf. In: Cockton, G., Lárusdóttir, M., Gregory, P., Cajander, Å. (eds.) - Integrating User-Centred Design in Agile Development. Springer. 2016
- Infrastructuring & Digital Fabrication** by Oliver Stickel, Volkmar Pipek. In: Mayr, H., Pinzger, M. (eds.) - INFORMATIK 2016, Lecture Notes in Informatics (LNI). Gesellschaft für Informatik. 2016
- Usability Quartett (Neuaufgabe und Erweiterung)** by GermanUPA, Oliver Stickel, Alisha Tilsner, Elisabeth Schwerdtner, Susanne Speh, Cindy Waldinger. Method Cards, GermanUPA (see pitch). 2016
- Report series for SME on understanding users (1, 2, 3)** by Oliver Stickel, Sebastian Draxler, Volkmar Pipek et al. Wissenschaft trifft Praxis by “Mittelstand Digital”. BMWI / BMWK. 2016
- 3D Printing with Marginalized Children – An Exploration in a Palestinian Refugee Camp** by Oliver Stickel, Dominik Hornung, Konstantin Aal, Markus Rohde, Volker Wulf. Proceedings of the 14th European Conference on Computer Supported Cooperative Work (ECSCW) '15, pp. 83-102. 2015
- Appropriating digital fabrication technologies - a comparative study of two 3d printing communities** (slides) by Thomas Ludwig, Oliver Stickel, Alexander Boden, Volkmar Pipek, Volker Wulf. Proceedings of the iConference '15. 2015
